Details of Facilities/Instruments are in Annexure 1.

Facility wise lender details are at Annexure 2.

Detailed explanation of covenants is at Annexure 3.

Detailed Rationale

Infomerics ratings has assign and reaffirmed its ratings to various debt facilities/instruments of Paisalo Digital Limited (PDL) as it continues to derive comfort from the established track record of operations and experienced management, consistent improvement in scale of operations, comfortable capitalisation, healthy asset quality and tie-up with prominent PSU banks for co-lending. However, these strengths are partially offset by portfolio and geographic concentration risk and intense competition in the industry.

The 'Stable' outlook indicates expected growth in scale of operations and profitability on a sustained basis. IVR believes PDL's will continue to benefit from its operational track record in the lending business, healthy asset quality, comfortable capital adequacy and diversified funding profile.

Key Rating Sensitivities:

Upward Factors

- Substantial and sustained improvement in the scale of operations while maintaining healthy asset quality, comfortable capitalisation, and liquidity.
- Sustenance of the overall gearing

Downward Factors

- Substantial deterioration in the scale of operations, asset quality, capitalisation and/or liquidity
- Deterioration in overall gearing

Press Release

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Consistent improvement in scale of operations

PDLs consolidated AUM stood at Rs 5,232.80 crore (Including PDLs standalone AUM of Rs 5029.09 crore and NFPLs standalone AUM of Rs 203.71 crore) in FY25 (refers to period 1st April 2024 – 31st March 2025) when compared to consolidated AUM of Rs 4586.00 crore (Including PDLs standalone AUM of Rs 4332.00 crore and NFPLs standalone AUM of Rs 254.00 crore) in FY24. The growth in AUM is on the back of improved disbursements which has increased from Rs 3,590.24 crore in FY24 to Rs 3,719.90 crore in FY25. On the back of which consolidated Net Interest Income (NII) has also increased to Rs 368.06 crore in FY25 from Rs 318.91 crore in FY24 with improvement in AUM. Consolidated Profitability remains stable with Net interest margin of 8.29% and PAT of Rs 200.12 crore for FY25 (9.02% and Rs 178.97 crore respectively in FY24). NIMs have marginally declined due to reduction of lending rates amidst sever competition in the industry.

Comfortable capitalisation

On a standalone basis, PDLs and NFPLs capitalisation remains comfortable at 39.16% and 29.90% respectively for FY25 (35.92% and 23.08% respectively in FY24) which is well above the minimum regulatory requirement of 15%. The consolidated tangible Net worth has improved to Rs. 1,534.84 crore in FY25 from Rs. 1,329.42 in FY24 mainly due to retention of profits and and infusion of fresh capital of Rs. 18.51 Crore by conversion of FCCB of USD 2million and ESPS (shares issued to employees) during FY25. The consolidated gearing despite marginal increased, remained comfortable at 2.32x in FY25 (2.00x in FY24).

Healthy asset quality

Given the stringent lending policies/practices coupled with well-established recovery and collection mechanism, PDL has been able to maintain healthy asset quality over the years. For FY25, gross and net NPAs of PDL remained healthy despite increasing to 0.98% and 0.76% when compared to 0.21% and 0.02% respectively for FY24. The increase in GNPA levels in FY25 is mainly on account of fresh slippages and lower than expected recoveries in

Press Release

FY25 when compared to FY24. NFPL has nil NPAs at the end of FY25 as the company has a policy of writing off the loans post 90dpd. (Nil NPAs in FY24). Collection efficiency of PDL stood at an average of ~95% for the last 12 months ending March 2025.

Established track record of operations and experienced management

Paisalo group was established in 1992 and commenced its business loans operations in 2006 through PDL and has a long track record of two decades in retail lending business. In 2011, PDL acquired 100% stake in Nupur Finvest Private Ltd (NFPL, IVR AA-/Stable) and forayed into unsecured retail lending. PDLs board comprises of ten directors including five independent directors and lead by Mr. Sunil Agarwal, Managing Director and CEO. He has more than three decades of experience in SME and retail financing and is supported by a qualified and well experienced management team and board of directors.

Tie-up with prominent PSU bank for co-lending of small ticket unsecured loans

Paisalo group has entered into co-lending arrangement with 5 Public Sector Banks as on date namely, State Bank of India, Bank of Baroda, Karnataka Bank, Punjab National Bank and UCO Bank and assignment transaction with 4 Banks namely, South Indian Bank, SBI, Central Bank of India and Bank of Baroda., wherein it would originate loans under its income generation loans extended to both individuals and under its group lending schemes, of which major share would be funded by the PSU banks and the balance would be funded by PDL. PDL manages the loans including collections and generates fee income on the off-book AUM. This arrangement allows PDL to mitigate the risks associated with the unsecured lending portfolio.

Key Rating Weaknesses

Portfolio and geographic concentration risk

Around 89% of PDLs loan book comprises business loans which are mainly chunky in nature. The company's operations are also constrained by geographical concentration risk risk in terms of sourcing of business by branches. Around 40% of the portfolio is concentrated in two states, viz., Delhi contributing to 22.99% and Uttar Pradesh contributing to 17.15% in PDL and ~99% of portfolio is concentrated in two states, viz., Delhi contributing to ~60% and Uttar Pradesh contributing to ~39% in NFPL. However, the company is taking initiatives to enhance

Press Release

its retail base and to spread its reach into other geographies. The company's MSME portfolio is booked in the Delhi as the underwriting process is centrally done through Delhi office because the larger ticket size component involved in the MSME category specialized staff is required to monitor the transaction. Therefore, with the operational efficiencies involved, MSME portfolio is booked in Delhi (as the booking cannot be made at the branch wise).

Intense competition in the industry

The company is exposed to intense competition from other varied sized NBFCs. The lending industry focused on NBFC financing of varied ticket size is highly fragmented with unorganized/organized lenders also relying for the same set of borrowers. However, to some extent the robust digital model and outreach created by PDL along with turnaround time delivered, enables to attract and retain customers.

Analytical Approach: Consolidated

IVR has taken a consolidated view of the businesses and financial profiles of PDL and its subsidiary viz, NFPL collectively referred to as Paisalo Group due to common management and businesses and significant operational and financial linkages between the entities.

Applicable Criteria:

Press Release

Liquidity: Strong

The liquidity profile of the company remains strong with no cumulative mismatches in its asset-liability management profile as on June 30, 2025. Further, PDL's has a liquidity cushion of Rs. 147.60 crore in the form of cash and cash equivalents (Rs. 11.27 crore), liquid investments (Rs. 63.00 crore), fixed deposits (Rs 0.10 crore) and undrawn banking lines (Rs. 73.23 crore) as on 30 June 2025. IVR does not foresee any liquidity risk in the near term, given PDL's adequate liquidity position and its ability to raise funds.

About the company

Incorporated in 1992 PDL provides business loans to SMEs/corporates and income generation loans to individuals. Mr. Sunil Agarwal, the founder promoter of the company, continues to be the managing director of the company since inception. The company is listed on Bombay Stock Exchange and National Stock Exchange.
